Assignment of Patent Rights

This ASSIGNMENT OF PATENT RIGHTS (the "Assignment") is entered into this 22nd day of July, 2004 (the "Effective Date"), by Millennium Pharmaceuticals, Inc., a Delaware corporation with principal offices at 40 Landsdowne Street, Cambridge, MA 02139 ("Assignor"), and Gene Logic Inc., a Delaware corporation with principal offices at 610 professional Drive, Gaithersburg, MD 20879 ("Assignee").

WHEREAS, Assignor is the owner of the patents and patent applications specified in Schedule A attached hereto (the "Patent Rights");

WHEREAS, pursuant to that Asset Purchase and Technology Rights Agreement between Assignor and Assignee of even date herewith and related agreements, Assignee is acquiring certain assets of Assignor to which the Patent Rights pertain; and

WHEREAS, Assignee is desirous of acquiring the entire and exclusive right, title, and interest in and to the Patent Rights and the underlying inventions described therein, in the United States and throughout the world; and

WHEREAS, Assignor is willing to assign to Assignee all right, title, and interest in and to the Patent Rights in the United States and throughout the world

NOW, THEREFORE, for good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged by Assignor, the parties hereby agree as follows:

1. Assignor hereby assigns, sells, transfers, conveys and sets over to Assignee, its successors and assigns, forever, all of Assignor's right, title, and interest in the United States and throughout the world and for the full term thereof in and to
 - (a) the Patent Rights and any other patents and applications claiming priority thereto,
 - (b) all patents and applications, including provisional applications whether or not filed more than one year ago, that claim the benefit under 35 USC §119 and/or §120 of any application or provisional application to which a patent or application identified in Patent Rights claims benefit under 35 USC §119 and/or §120,
 - (c) the underlying inventions described in (a) and (b) above and all existing improvements thereon and the rights of priority relating thereto,
 - (d) all rights to any patents that may be granted or issued from the patents or applications described in (a), (b), and (c) above, including without limitation any extensions, continuations, continuations-in-part, divisions, reissues, substitutions, reexaminations, and renewals thereof, or other equivalents thereof, and further, and
 - (e) all foreign counterparts of any of the foregoing,
 - (f) all other rights, powers and privileges of whatsoever nature, kind or description pertaining to or arising from the foregoing including,

without limitation, the right to sue or bring other actions and recover for past, present, and future infringement thereof, for Assignee to have, hold, exercise and enjoy in as ample and beneficial a manner as each Assignor might or could have held and enjoyed the same if this assignment had not been made.

2. Assignor further assigns to and empowers Assignee, its successors and assigns or nominees, all rights to make applications for patents or other forms of protection for the inventions assigned above, and to prosecute such applications as well as to claim and receive the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and the right to invoke and claim such right of priority without further written or oral authorization.

3. Assignor further agrees that Assignor will, without charge to Assignee: (a) cooperate with Assignee in the prosecution of patent applications (whether U.S. or foreign) on the inventions and any improvements; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications, inventor assignments, powers of attorney and instruments of transfer; and (c) perform such other acts and deeds as Assignee lawfully may request to assist Assignee to obtain, maintain, defend, or enforce the rights assigned above in any and all countries, and to vest title thereto in Assignee or Assignee's successors and assigns.

4. Assignor hereby irrevocably authorizes and requests the Director of the United States Patent and Trademark Office, or his designee, and, as appropriate, those corresponding officials in the several states and countries throughout the world, and any other agency or authority having jurisdiction in these matters to record Assignee as the owner of and to issue in accordance with this Assignment, the patents and patent applications which are assigned to Assignee hereby, and hereby irrevocably consents to the filing and recordation of this Agreement in the United States Patent and Trademark Office and with corresponding officials, agencies, and authorities throughout the world.

5. In the event that Assignee is unable for any reason whatsoever to secure Assignor's signature to any document it is entitled to under paragraph 3 above, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents, as its agents and attorneys-in-fact to act for and on its behalf and instead of it, to execute and file any such document and to do all other lawfully permitted acts to further the purposes of the foregoing with the same legal force and effect as if executed by Assignee.

6. This Agreement may be executed in facsimile counterparts, and each of which so executed, irrespective of the date of execution and delivery, shall be deemed to be an original, and all such counterparts, together shall constitute one and the same instrument.

7. This Agreement shall be binding on, and shall inure to the benefit of, the parties hereto and their respective successors and assigns.

8. Each party represents that it has taken all necessary action to authorize the execution and delivery of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their respective duly authorized officers, as of the Effective Date.
